

Sizing guide

Instructions:

- 1 Print out this Adobe PDF File at 100% on your printer. Use the print accuracy check at right to ensure printing at the proper size.
- 2 Fold the bottom part of this page on the dashed line.
- 3 Cut along the dotted line around the fitting gauge.
- 4 Place the fitting gauge on your nose as shown in the picture below.
- 5 Determine the appropriate size by which area your nose reaches.
(S – Small, M – Medium or L - Large)

Philips Respiroics always recommends consulting a physician or registered Sleep Therapist in fitting a mask to ensure a proper sizing and fit.

Mask Frame Sizing

- Medium (MED) frame
- Small (SM) frame
- Large (LG) frame

The medium (MED) mask frame will comfortably fit most faces. If the MED frame does not fit your face, contact your healthcare provider to see if a small (SM) or large (LG) mask frame would better suit your needs.

*** Tip:** If the mask frame falls backward and is too close to your ears you may need a smaller mask frame.

*** Tip:** If the mask frame falls forward on the head and is too close to your eyes you may need a larger mask frame.
